\*The % Daily Value (DV) tells you how much a nutrient in a serving of food contributes to a daily diet. 2,000 calories a day is used for general nutrition advice.

## WHOLE STORY MEALS

The first and only real food, powdered, enteral meal replacement product. Designed to promote healing, growth and healthy development.

## Technical Information

Whole Story Meals, Inc.

Item: Chicken, Peas and Carrots.

Powdered whole food meal formulated for enteral feeding or oral feeding. WSM powdered meals are intended to be used once hydrated with the recommended amounts of water, juice, milk or milk alternative.

## Description

Chicken, Peas and Carrots is a powdered real food, balanced meal that is packaged in a resealable zip top pouch. It is consumed only after rehydrating with water, milk or juice, enterally or orally. This meal does not have added vitamins and minerals and allows for individuals to customize to specific micronutrient needs.

Each serving (90g of powder) is rehydrated using 10 fluid ounces (300ml) of water and contains 400 calories, 16 grams of protein, 46 grams of carbohydrates and 17 grams of fat.

As with any real food product, variations in caloric and nutrient levels should be expected due to growing conditions. If a specific medical condition requires precise nutrient levels please discuss with your medical team.

Disclaimer: Not intended to be consumed unless hydrated with the appropriate amount of fluid. Not for use by infants under 1 year of age without the advice of a physician. Powder is made of

real food and particle sizes may vary. Settling and clumping may occur.

**Ingredients**

Chicken broth and fat, oats, peas, sweet potatoes, carrots, strawberries, coconut oil, cooked chicken, ancient sea salt, onion, turmeric, black pepper, dextrin (a fiber).

Please note that the Chicken broth and fat, and chicken are cooked ingredients.

Made from 100% Non-GMO ingredients.

**Caloric Distribution**

16% of calories from protein

46% of calories from carbohydrate

38% of calories from fat.

**Protein Sources**

Chicken broth and fat, oats, peas.

**Carbohydrate Sources**

Oats, sweet potatoes, peas, carrots.

**Fat Sources**

Chicken broth and fat, coconut oil.

**Fiber Sources**

Peas, oats, strawberries, sweet potatoes.

**Allergens and Sensitivities**

Peas, Coconut (tree nut).

Gluten free, Soy Free, Dairy Free, Egg Free, Corn Free, Lactose Free.

Manufactured in a facility that processes: Milk, eggs, peanuts, tree nuts, shellfish, and soy.

One serving is considered HIGH in the following FODMAPS: Polyols, Oligosaccharides.

**Contraindications**

Possible Allergens: peas, oats.

Any drug/nutrient interactions should be evaluated by a physician or pharmacist.

**Packaging**

BPA Free. Zip top resealable plastic pouch, contains 1 pound, 2000 calories.

**Use Instructions**

A scoop is provided in each bag and holds approximately  $\frac{1}{4}$  cup (23 grams,  $\frac{1}{4}$  of a serving). Each  $\frac{1}{4}$  cup scoop provides a 100 calorie portion of powder. For each scoop we recommend a minimum of 2.5 fluid ounces (75 ml) of water be added and mixed well to produce a mixture that will flow through a pump. Mixes best in a shaker bottle equipped with a wire whisk ball. At the recommended rehydration rate, mixture will provide 1.0 calorie per ml. When consuming for primary nutrition, we recommend adding an age appropriate multivitamin/mineral supplement.

May also bolus feed or consume orally. For bolus or oral feeding, hydrate to the desired texture. Powder may be mixed with other consumable liquids such as milk or juice to increase calories. Powder may also be added to other enteral products to increase calories and add nutrients.

Our powdered meal may be combined with boiling water to quick-cook the ingredients. (Please note the chicken and chicken broth are cooked ingredients). Cool mixture before consuming. We suggest using this method for anyone who wishes to consume the meal cooked. Use slightly less water to make a hot-cereal textured meal for oral consumption.

**Shelf Life**

4 years, unopened. Once opened, consume contents within 60 days.

**Warning**

Not for Parenteral Use. Not intended for children under 1 year of age unless under the direction of a physician or a Registered Dietitian. Please check with your health care provider before using Whole Story Meals.

### Transforming Enteral Nutrition

**Directions:** Each scoop (23g) of powder contains 100 calories. Choose the number of scoops you need based on the amount of calories you want in your meal. Mix the powder with water or liquid of your choice. We recommend 2.5 oz of liquid per scoop of powder. A shaker bottle with a wire whisk is best for mixing.

For additional calories, our powder can be mixed with other liquids. It can also be mixed into other forms of enteral meals such as traditional formula or blenderized meals for a calorie and nutrition boost.

For those consuming orally, mix with liquid of choice to reach desired thickness.

**Note:** Using less than 2.5 oz of water per scoop will produce a thick formula that can be bolus fed with a syringe but may not flow well through a pump. For best results in a pump, use 2.5 oz or more of water/liquid per scoop.
